

Joseph Lang

Senior Software Engineer & Technical Lead

I take ambiguous, technically demanding problems from first investigation through production — across real-time systems, AI integration, and infrastructure — and build solutions that scale.

WORK EXPERIENCE

Senior Software Engineer: XR Artificial Intelligence Integration

Mursion

10/2024 - 10/2026

- **Conversational AI:** Built Mursion's first on-demand AI simulation, integrating 3d animated avatars to agent API
- **Latency Reduction:** Diagnosed lag in conversation flow, restructured STT workflow, cutting response time by 1.5s
- **Developer Tooling:** Developed in-simulation Jira reporting pipeline that auto-captures video, AI logs, and diagnostics
- **Accessibility:** Built keyboard accessibility into our frontend and streaming service tooling, meeting WCAG 2.1 standards
- **Scalable Architecture:** Lead decoupling between rendering pipeline and AI orchestration, more modular, scalable codebase

Engines Plugin Lead

Leia Inc

07/2019 - 03/2024

Light Up Life

- **Team Lead:** Led plugin developer team, driving project milestones and timelines.
- **Unity:** Added support for Post Processing, URP, & HDRP; created editor extensions for auto-tuning player settings.
- **Unreal:** Built release pipeline, added UE5 support.
- **Company Merger:** Led the technical aspect of a company merger by developing a versatile plugin compatible with both Windows and Android APIs.
- **Simplified Architecture:** Redesigned Unity plugin architecture, reducing complexity from 30+ to 8 classes, enhancing maintainability and performance.
- **Partner Relations:** Cultivated strong relationships with industry partners and the developer community, serving as the primary liaison.

SKILLS

AI Integration

Unity 3D

C#

C++

Python

JSON

Conversational AI

Unreal

SDK Design

Pipeline R&D

Enterprise SaaS

CICD

System Architecture

Performance Profiling

Team Leadership

UI / UX

Real-Time Streaming

Observability

Accessibility (WCAG 2.1)

Developer Tooling

PERSONAL PROJECTS

Newburgh Armory Unity Center (07/2021 - 08/2026)

- Teach game and VR development to middle schoolers in underserved community of Newburgh, NY

Game Creators Hudson Valley, SFVR, SVVR, XR Edu, VR Odyssey (06/2016 - Present)

- Managed 20+ VR events in Bay Area

VR Conflict Resolution Tools (11/2018 - 07/2019)

- Longitudinal study with Mars Academy USA on conflict resolution VR training for people living and working in isolated environments

What I See (04/2018 - 10/2018)

- Developed VR empathy tool exploring body dysmorphia

Blaze Of Trust Project (09/2016 - 09/2017)

- Lead VR developer, exploring vulnerability and trust with a mixture of virtual reality and interactive exercises

EDUCATION

Batchelor's Degree

DeVry University

Game and Simulation Programming

WORK EXPERIENCE

Founder / Developer Gamehearts LLC

07/2016 - 07/2019

Game and XR development

- **Mahalo Digital:** Built AR Stamp Card for Dell Technologies World Expo in Las Vegas.
- **Valeo:** Successfully brought VR teleportation experience from technical demo with rough edges to polished presentation in 5 weeks.
- **Lucile Packard Children's Hospital:** Led teams of artists and voice actors to develop anesthesia stress reduction games. Featured in NBC and Super Bowl commercials.
- **Sonder:** Created cinematic pipeline tools for one of the first Unity animated short films.

Content Solutions Developer Stanford University Dept. of Clinical Anatomy

10/2013 - 07/2016

- **Inside Rodin's Hands:** Created holographic art exhibit. Featured on Jazeera America.
- **Inside Human Body:** Created 4 interactive VR lectures.
- Ported IOS educational app to Windows, ZSpace, and Oculus.
- Led ongoing efforts to shift clinical anatomy content from textbooks to interactive digital media, including AR & VR.

AWARDS

Coyote Automobile Awards 2019: Techno Innovation 3rd Place - Valeo Voyager XR

Best Use Of IBM Watson 2018: Avatar Medic

Oculus Launchpad 2018 Winner: NeuroExplorer VR

Microsoft Holohacks 2016: 2nd Place - Connect 4

High Fidelity Hackathon 2016: 2nd Place - Attack/Titan

ZSpace App Challenge: Winner - Escape!

Hololens Hackathon: 2nd Place - Connect

DeVry Tech Demo Day: Planning, Technical Merit, Best Presentation, Judges Choice - TrakKart
